

Software house from Rzeszów among the best in Poland!

The mobitouch company was included in the November list of Top 20 Mobile App Development Companies in Poland, prepared by the Appfutura platform. The renowned portal has given the accolade to the mobitouch for the second time this year.

In November mobitouch was acknowledged by Appfutura as one of the best companies in Poland providing mobile solutions. Appfutura is a global community of developers, as well as companies and people seeking mobile application contractors. The platform compiles rankings of the best companies in the mobile application industry in a given location based on the opinions of their clients. This is the second time this year mobitouch was included in the 'best of' lists. In May the platform placed the Subcarpathian company on the Top App Development Company ranking, recognizing it as one of the best mobile application solutions provider in Poland in 2018.

The Appfutura portal was not the only one that appreciated the Rzeszów-based software house this year. The company received an equally esteemed merit from the Clutch portal. An independent research company, which is one of the best-known IT analytical platforms in the world, has placed mobitouch on the prestigious list of Top B2B Companies in Poland in 2018. The reviews of clients on specific projects are also taken into the account in compiling this ranking.

Subcarpathian software house accepts honorable mentions from prominent portals with pure satisfaction. It is especially pleased to be appreciated by global platforms that rely on customers' feedback while assessing companies in the IT industry. For mobitouch the title of one of the top mobile application providers in the country is an inspiration to continue searching for non-standard solutions and creating the best digital products. And, of course, the more you have the more you want – the software house from Rzeszów hopes to receive further nominations, awards or places on respected by the industry rankings.
